End of 2025 Special
₡210,000 or \$400
1st Month

No Commitment Trial
Annual Fee only assessed if student continues enrollment.

Annual Technology & Facilities Fee

₡183,750 or \$350/yr

Each student is charged a **once-annual Technology & Facilities Fee**, billed once per 12-month enrollment cycle based on the student's individual start date. In the first year, this fee is charged with the second month of tuition; in subsequent years, it is billed with the first month of tuition. Families may request to split the fee into two equal installments during the first two months of enrollment.

Enrollment pauses do not count toward the 12-month cycle for this fee unless otherwise arranged in advance due to documented extenuating circumstances.

This supports:

- Shared equipment & classroom technology
- Upkeep of learning spaces & safety supplies
- Long-term infrastructure to ensure continuity of service
- This fee is assessed at the minimum required amount and re-evaluated annually to remain equitable and transparent.
